PREAMBLE

The Contracting States of this Protocol,

Having regard to the Agreement on the Creation of the African Regional Intellectual Property Organization (ARIPO) concluded in Lusaka (Zambia) on December 9, 1976, and in particular to its Article III(c), in accordance with which the objectives of the Organization include the establishment of such common services or organs as may be necessary or desirable for the co-ordination, harmonization and development of the intellectual property activities affecting its members;

Considering the advantages to be gained by the pooling of resources in respect of intellectual property administration;

Recognizing the need to have an effective *sui generis* system of intellectual property protection of new varieties of plants that meets the requirements of Article 27.3 (b) of the Trade-Related Aspects of Intellectual Property Rights (TRIPs) Agreement;

Recognizing that nationals, natural persons and legal entities of Member States shall enjoy equal treatment within the Contracting States provided that the said nationals, natural persons and legal entities comply with all conditions and formalities as set out in this Protocol;

Recognizing the need to provide growers and farmers with improved varieties of plants in order to ensure sustainable agricultural production;

Convinced that provision for plant breeders' rights in the region will allow farmers access to a wide range of improved varieties to contribute to the attainment of the regional goal of economic development and food security;

Aware that the Member States require enhanced capacity building and need to develop effective national plant variety protection systems;

Convinced of the importance of providing an effective system for the protection of new varieties of plants with the aim of encouraging the development of new varieties of plants for the benefit of the society,

- (3) The conditions for the implementation of the provisions under paragraph (2), such as the different level of remuneration to be paid by small scale commercial farmers and large scale commercial farmers and the information to be provided by the farmer to the breeder, shall be stipulated in the regulations.

Article 23

Exhaustion of Breeder's Right

(1) A breeder's right shall not extend to acts concerning any material of a protected variety, or of a variety covered by the provisions of Article 21(3), which has been sold or otherwise marketed by the breeder or with the breeder's consent in the territories of the Contracting States to the Protocol, or any material derived from the said material, unless such acts:

Article 26

Duration of Breeder's Right

(1) A breeder's right shall be granted for a period of twenty years from the date of the grant of the breeder's right excluding trees and vines, for which a breeder's right shall be granted for a period of twenty-five years from the said date.

(2) Subject to paragraph (5), no rights in the designation registered as the denomination of the variety shall hamper the free use of the denomination in connection with the variety, even after the expiration of the breeder's right.

(3) The denomination of a variety shall be submitted by the breeder to the ARIPO Office in accordance with Article 12.

(4) Where it is found that a denomination does not satisfy the requirements of paragraph (1), or that a prior right is in existence, the ARIPO Office shall refuse to register it and shall require the breeder to propose another denomination within a prescribed period. The denomination shall be registered by the ARIPO Office at the same time as the breeder's right is granted.

(5) If, by reason of a prior right, the use of the denomination of a variety is forbidden, to a person who, in accordance with the provisions of paragraph (10), is obliged to use it, the ARIPO Office shall require the breeder to submit another denomination for the variety.

(6) A variety must be submitted to the Contracting States, the ARIPO Office and to all members of an inter-governmental organization providing an effective system of plant variety protection under the same denomination.

Arusha Protocol for the Protection of New Varieties of Plants

(7) The ARIPO Office shall register the denomination so submitted, unless it considers the denomination unsuitable, in which case the ARIPO Office shall require the breeder to submit another denomination.

(8) The ARIPO Office shall ensure that the authorities of the Contracting States and of all members of an inter-governmental organization providing an effective system of plant variety protection are informed of matters concerning variety denominations, in particular the submission, registration and cancellation of denominations.

(9) Any Contracting State and any member of an inter-governmental organization providing an effective system of plant variety protection may address its observations, if any, on the registration of a denomination to the ARIPO Office.

(10) Any person who offers for sale or markets propagating material of a variety protected within the territories of the Contracting States is obliged to use the denomination of that variety, even after the expiration of the breeder's right in that variety, except where, in accordance with the provisions of paragraph (5), prior rights prevent such use.

(11) When a variety is offered for sale or marketed, it is permitted to associate a trademark, trade name or other similar indication with a registered variety denomination, and if such an indication is so associated, the denomination must nevertheless be easily recognizable.

Article 28 **Nullity of Breeder's Right**

(1) The ARIPO Office shall declare a breeder's right null and void when it is established:

- (a) that the conditions laid down in Articles 7 or 8 were not complied with at the time of the grant of the breeder's right; or
- (b) that, where the grant of the breeder's right has been essentially based upon information and documents furnished by the breeder, the conditions laid down in Articles 9 or 10 were not complied with at the time of the grant of the breeder's right; or
- (c) that the breeder's right has been granted to a person who is not entitled to it, unless it is transferred to the person who is so entitled.

(2) No breeder's right shall be declared null and void for reasons other than those referred to in paragraph (1).

CHAPTER IX

NULLITY, CANCELLATION AND SURRENDER OF BREEDER'S RIGHT

Article 29

Cancellation of Breeder's Right
